Police Sniper 2 – Stress Management

“To Fire a Perfect Shot under Stress”

This course teaches the police sniper how to shoot well in stressful situations plus learning advanced shooting skills, such as supported positions and moving targets. Firing a perfect shot each and every time involves successfully dealing with physical, mental, and emotional stress. The student is instructed and guided through stress-control techniques so that the skills developed in PS1 can be consistently applied in any situation. The course includes marksmanship instruction and coaching in deliberate, snap, rapid follow-up and moving targets. Subjects taught include:

- Advanced Marksmanship Skills:
 - Deliberate Fire
 - Snap Shooting
 - Rapid Follow-Up
 - Moving Targets
- Supported Shooting Positions (Support equipment and field expedient supports)
- Night Shooting
- Intermediate Barriers - Penetration Demonstration
- 3-phase Planning
- CCB Exercises (Ten CCB exercises under progressively more stressful conditions)
- Stress Exercises (Five major exercises under progressively more stressful conditions)

Offered in 2020:

05-09 October 2020

\$1450.00 plus HST
