Advanced Police Carbine Skills Course

Carbine marksmanship skills for ERT members, advanced operators, and police instructors

Prerequisites: Qualification on the carbine system required; advanced training and ERT/instructor experience definitely an asset.

4-day course of advanced shooting techniques, including accuracy, speed, handling and dynamics. It is intended for the police tactical team members and instructors who want to develop their carbine proficiency. We tune the content to the participants, and the intention is to move quickly through a review of marksmanship and accuracy exercises and then move on to intermediate and advanced challenges. At the end of the course, your skills will be improved, and you'll have a

large repertoire of skills drills you can take back to your team.

Includes instruction and training practices in:

- Carbine marksmanship principles (review)
- Grouping and zeroing
- Positions (conventional and expedient)
- Accuracy drills
- Consistency drills (Intro to the "50 Club")
- Speed drills ("Last One Standing" and others)
- Stoppages and immediate actions
- Distance shooting (familiarity to 300 meters)
- Low light shooting
- Accuracy & speed with intensity ("Point & Shoot")
- Dynamics (moving targets, fire and movement practices)
- Speed & multiple targets
- Stress shooting ("Cross the Course" timed fire from expedient positions)
- Stress games ("Black Bear" challenge)
- Stress tests (scenarios)

Course test: Accuracy, Speed and Handling challenges - Standard: 80%

Course length: 4 days (0800 to 1700); about 15% classroom, 85% range work

Ammo: about 1000 rounds plus

Course includes instruction, ranges, targetry, and the MilCun 'world-famous' hot lunches.

07-10 September 2021

(Tuesday to Friday)

\$1150.00 plus HST
